

I assure you gentlemen, "Torment" is a breakthrough in cyber-organic technologies. He is no mere machine. Witness for yourselves!

Engage!

"All functions on line!"

"Torment's" cyber-synapses explode into an expansion of color. An awakening of the physical and neurological.

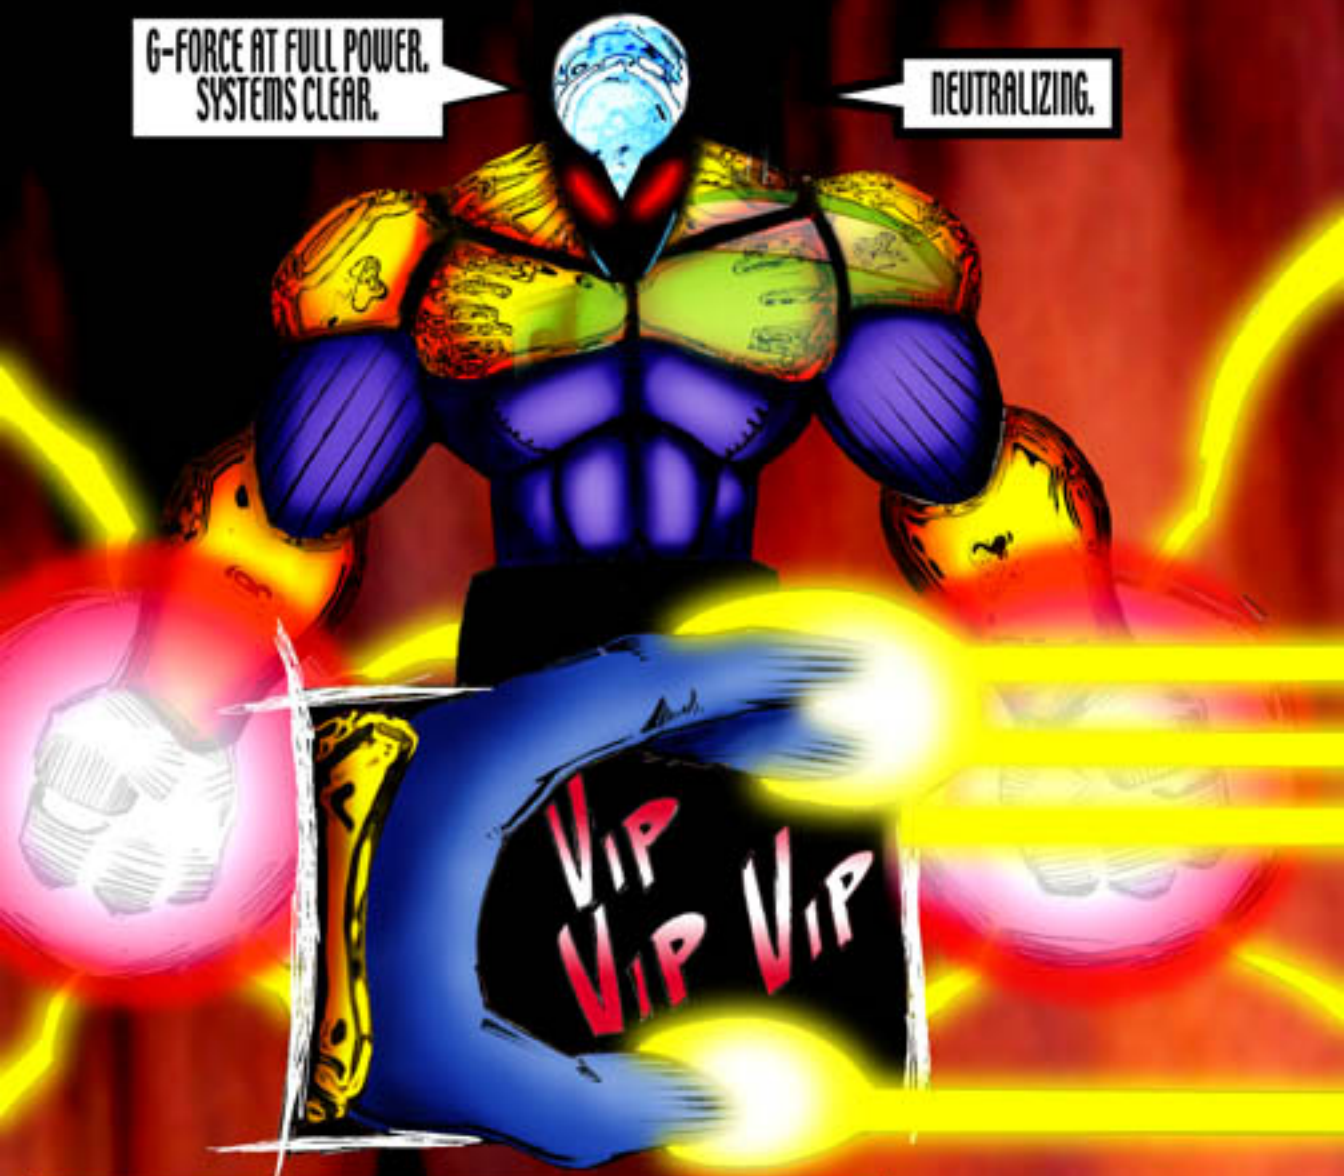

"Watch closely!
Start the air attack!"

G-FORCE AT FULL POWER.
SYSTEMS CLEAR.

NEUTRALIZING.

NEUTRALIZING.

Outstanding!
Bravo Torment!

NEUTRALIZING.

I could free my country tonight.

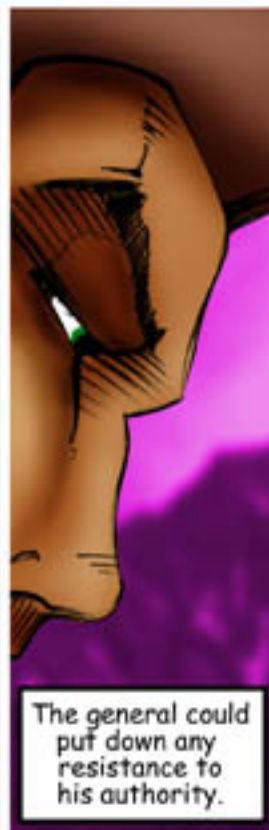

My country could regain all it has lost.

No more peace accords forcing us against our beliefs.

The general could put down any resistance to his authority.

No more Federal government telling us how to live.

That evening the giant cyborg has visitors.

"Antonio, nin-yo! Look at what they have done to you!"

How long have I been dead?

"Antonio, time passes quickly in the mortal world. You have been dead for three mortal years."

You have been chosen! Praises Be!

You are The Sword of the Lord. Blessed Be!

Nin-yo! You have been granted a wonderful opportunity through the Creator's grace!

You must return to the living!

Do not fear my son.

I am happy here... with you. I have no reason to return to the living world.

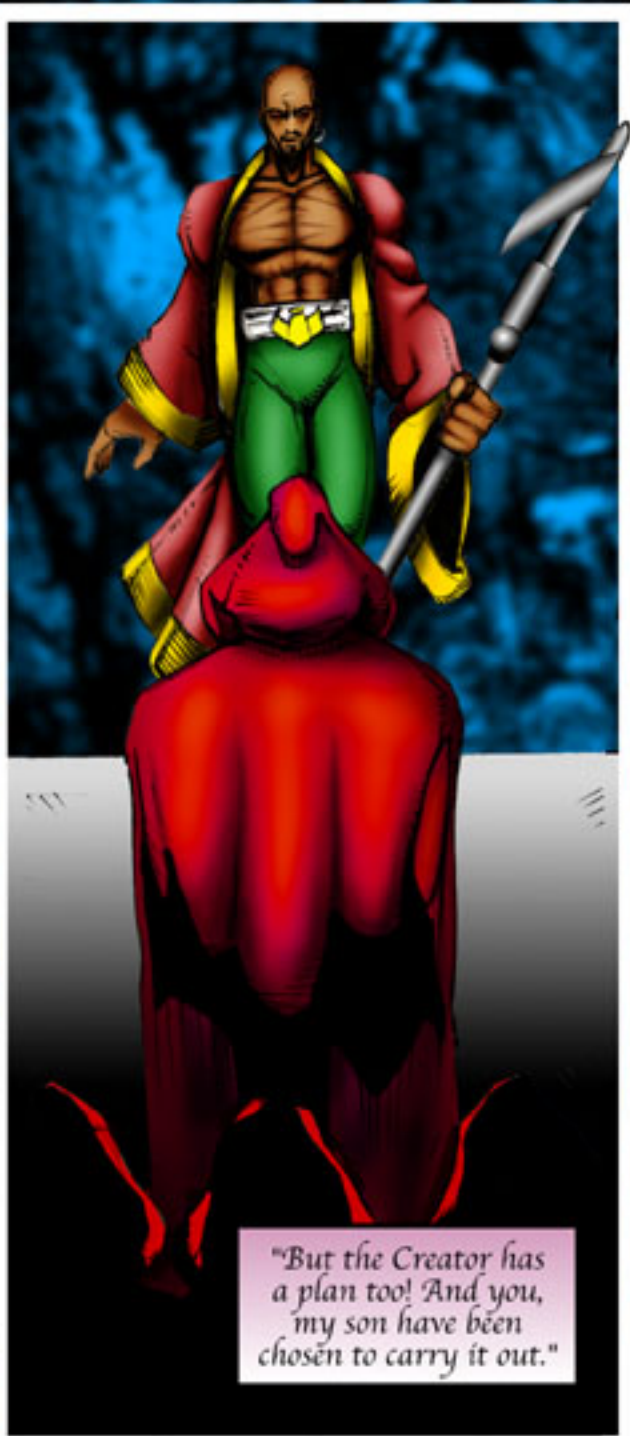

*"Yes, you do!
To save the eternal soul of a young man."*

"The Stranger prepares his armies for a world wide uprising."

"His power has reached into mankind's existence. Enough to grab the Creator's attention. The Stranger is not from Earth. He has existed in the universe longer than man."

"But the Creator has a plan too! And you, my son have been chosen to carry it out."

"The boy, t-Knight is the key to the plan."
